

IN THE CLAIMS:

1. (Currently Amended) A golf training aid for indicating a shoulder turn during a golf swing comprising attachment means for attaching a support member adjacent to a single shoulder of a golfer, the support member having shoulder position indicator means projecting outwardly therefrom and forwardly relative to the golfer and being fixedly adjustable and pivotally secured to the support member, said golf training aid affixable to the shoulder, whereby said ~~training aid~~ shoulder position indicator means remains visible throughout use.
2. (Previously Presented) A golf training aid according to claim 1, in which the golf training aid including an indicator means for indicating the shoulder turn during a takeaway in the back swing.
3. (Previously Presented) A golf training aid according to claim 1, in which the shoulder position indicator means comprises an indicator arm.
4. (Previously Presented) A golf training aid according to claim 3, in which the indicator arm is an elongated member.
5. (Previously Presented) A golf training aid according to claim 3, in which the indicator arm comprises a resilient member.
6. (Previously Presented) A golf training aid according to claim 3, in which the indicator arm is arranged to be substantially perpendicular to the shoulder of the golfer.
- 7-8. (Canceled)
9. (Previously Presented) A golf training aid according to claim 1, comprising position retaining means to retain the position of the shoulder position indicator means relative to the support member.

10-11 (Canceled)

12. (Previously Presented) A golf training aid according to claim 1, in which the shoulder position indicator means comprises an indicator member.

13. (Previously Presented) A golf training aid according to claim 1, in which the shoulder position indicator comprises a first indicator member and a second indicator member.

14. (Original) A golf training aid according to claim 13, in which the first indicator member is supported by the indicator arm.

15. (Previously Amended) A golf training aid according to claim 1, in which the second indicator member is located adjacent to the shoulder of the golfer.

16. (Previously Presented) A golf training aid according to claim 1, in which the support member comprises a pad.

17. (Original) A golf training aid according to claim 16, in which the pad comprises a flexible pad.

18. (Previously Presented) A golf training aid according to claim 16, in which the support member comprises a shoulder pad.

19. (Previously Presented) A golf training aid according to claim 1, in which the support member is located over the forward shoulder of the golfer relative to the swing.

20. (Previously Presented) A golf training aid according to claim 1, in which the attachment means comprises a harness mechanism.

21. (Currently Amended) A method of indicating the shoulder turn of a golfer during a golf swing comprising the steps of:

securing shoulder position indicator means to a single shoulder of the golfer, in order for the shoulder position indicator means to project outwardly and forwardly relative to the shoulder of the golfer said golf training aid affixable to the shoulder, whereby said ~~training aid~~ shoulder position indicator means remains visible throughout use; and

fixedly adjusting the shoulder position indicator means.

22. (Original) A method according to claim 21, in which the member indicates the shoulder turn during the takeaway in the back swing.

23. (Previously Presented) A golf training aid according to claim 21, in which the method comprises moving the shoulder position indicator means to be substantially perpendicular to the shoulder of the golfer in at least a horizontal plane.

24. (Previously Presented) A golf training aid according to claim 21, in which the method comprises securing the shoulder position indicator means to a golfer through a harness mechanism.

25. Canceled.

26. Canceled.

27. (Previously Added) The golf training aid according to claim 1, wherein said shoulder position indicator means can be moved in at least two planes.

28. (Previously Added) The golf training aid according to claim 27, wherein said at least two planes are perpendicular to each other.
